OBJECTIVE

I am Self-motivated professional passionate about quality control. I bring to this position a hands-on approach in the testing of software systems. I have a solid understanding of QA methodologies used in the industry and the Software Development Life Cycle (SDLC). I have 3+ years of work-related experience in Software Quality Assurance. My areas of expertise extend to cover Test Plans, Test Cases Development, Software Testing, Verification and Validation. I am greatly committed to learn, teach and improve.
